<p>Revelo übernimmt keine Garantie, dass der Buggypod (Beiwagen) an jedem auf dem Markt befindlichen Kinder- oder Sportwagen montiert werden kann. Bitte beachten Sie die Anweisungen in der Gebrauchsanweisung.</p> <p>Der Buggypod kann an die meisten auf dem Markt befindlichen Kinder- Sport- und Zwillingswagen angebracht werden. Grundlage ist diese Liste. Allerdings kann diese Liste nicht die Garantie einer Vollständigkeit übernehmen.</p> <p>Achten sie darauf, dass nicht die Bremse und das Faltsystem des Wagens gestört werden.. Der vordere Adapter kann etwas höher sein, als der Hintere. Schauen Sie bei Unsicherheit auf unsere Seite www.buggypod.com oder www.hk-beck.com. Oder rufen Sie mich an 0049 177 4231891</p>					
<p>Revelo does not guarantee that the Buggypod will fit every make and model of pushchair. Customers should always follow our guidelines:</p>					
<p>The Buggypod can be attached to most buggies and pushchairs including twin buggies and 3 wheelers.</p> <p>The strap of the mounting brackets can be tightened around most buggy and pushchair frames. The frames can be oval, square, round, thick or thin.</p> <p>Size 51 brackets fit frames up to 5 cm diameter. Size 70 brackets fit frames more than 5 cm diameter</p>					
<p>To assess whether the Buggypod will fit your pushchair, you should check that there are exposed fixture points on two major frame bars on the right hand side of your pushchair.</p> <p>The rear fixture point needs to be approximately 35-43 cm from the floor. The front fixture point can be level with the rear fixture point or up to approx. 8 cm higher.</p> <p>Both fixture points need to be between 16 - 37.5 cm apart.</p>					
<p>You cannot fit a bracket around two parallel telescopic bars, as the bars may slide alongside each other or split apart when folding pushchair (e.g. Bebeconfort Loola). You can fit the bracket on one telescopic bar if there is a gap of minimum 2 mm between the bars (e.g. Mamas and Papas Pliko).</p>					
<p>Check that the mounting brackets, once fitted, do not interfere with the braking system or folding mechanism of the host pushchair.</p>					
<p>Check that the bar to which you are fitting the bracket is vertical (looking from the rear or front), so that the bracket and Buggypod will sit vertically too.</p>					
<p>The front bracket can be fitted slightly higher than the rear bracket if it helps achieve a good connection.</p> <p>The Buggypod seat will then tilt back gently (as with many pushchairs) and you may in any case prefer that.</p>					
<p>You may find it helpful to look at the images of the Buggypod attached to a number of pushchair models in the Support pages at www.buggypod.com.</p> <p>If you are still unsure about whether the Buggypod will fit your pushchair, you can call our Helpline on 0870 850 3463 (M-F, 09:30-17:00) or email us at support@revelo.co.uk and we shall endeavour to help you. .</p> <p>Your local retailer may also be able to advise on fitting.</p>
